

365B Wi-Fi Setting Guide

Wi-Fi Setup Steps

1. Connect the printer to the computer using USB cable.
2. Open "Wi-Fi setting tool for three inch label printer.exe"
3. Enter IP address information, Wi-Fi SSID and password.

A screenshot of a Windows application window titled "Wi-Fi...". The window contains five text input fields for network configuration. The first field is labeled "IP:" and contains the value "192.168.1.100". The second field is labeled "Netmask:" and contains "255.255.255.0". The third field is labeled "Gateway:" and contains "192.168.1.1". The fourth field is labeled "SSID:" and contains "WiFi-SSID". The fifth field is labeled "Password:" and contains seven asterisks "*****". Below these fields is a button labeled "Set Wi-Fi".

4. Click "Set Wi-Fi", and wait a few seconds. The printer will emit a "BEEP" sound and restart automatically, indicating that the Wi-Fi setup is successful.

(The printer can also print a self-test page to check the Wi-Fi information.)
